- ✓ OVER 20 YEARS OF EXPERIENCE
- ✓ PART OF THE LINDLEY GROUP (EST. 1930)
- ✓ ENGINEERING, MANUFACTURING AND INSTALLATION
- ✓ OWN FLEET AND RESOURCES
- ✓ TURNKEY SOLUTIONS
- ✓ TECHNICAL SUPPORT AT EVERY STAGE

Who we are

Our mission: Enhancing maritime safety worldwide

Since 2004, Almarin has been developing and supplying high-performance **marine aids to navigation**. Together with our partner Lindley, Almarin has expanded its expertise to include **floating and fixed pontoons**, enhancing existing nautical infrastructure and creating new waterfront facilities.

We work with Port Authorities, yacht clubs, marinas, recreational and fishing ports, contractors, engineering firms, aquaculture companies...

Almarin is part of the Lindley Group, founded in 1930, which today comprises three companies dedicated to the maritime and industrial sectors.

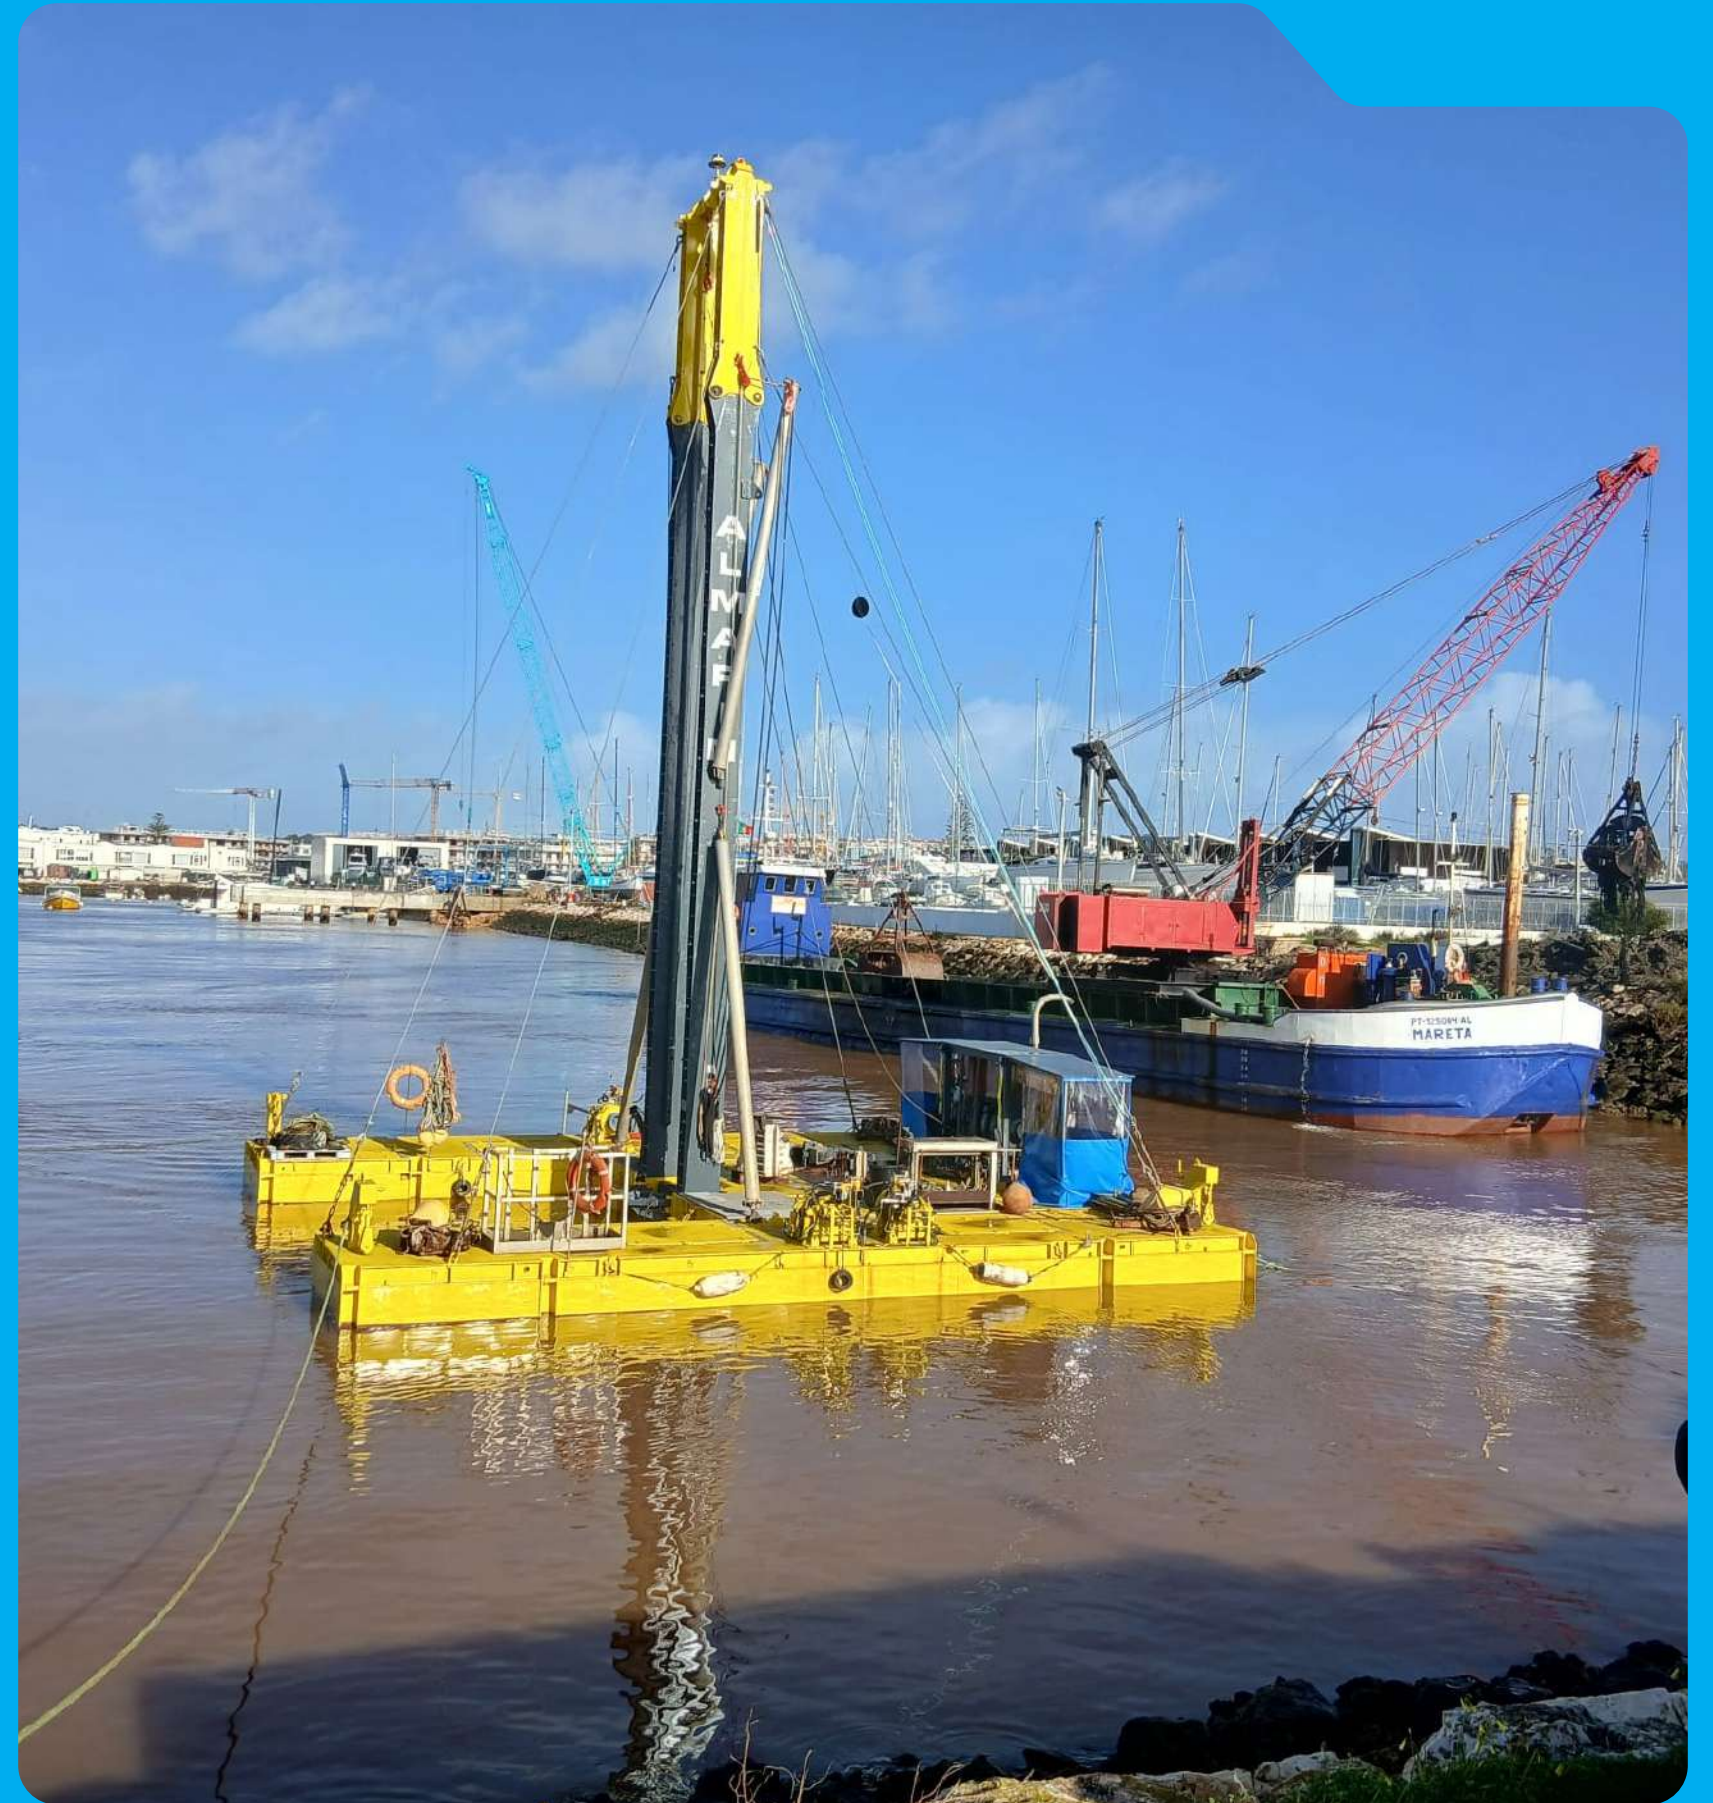

**GRUPO
LINDLEY**
ESTABLISHED 1930

Our Services

Marine Aids to Navigation. Pontoons

- Design and engineering of floating infrastructure
- Turnkey supply and installation
- Inspection, refurbishment and maintenance of port infrastructure

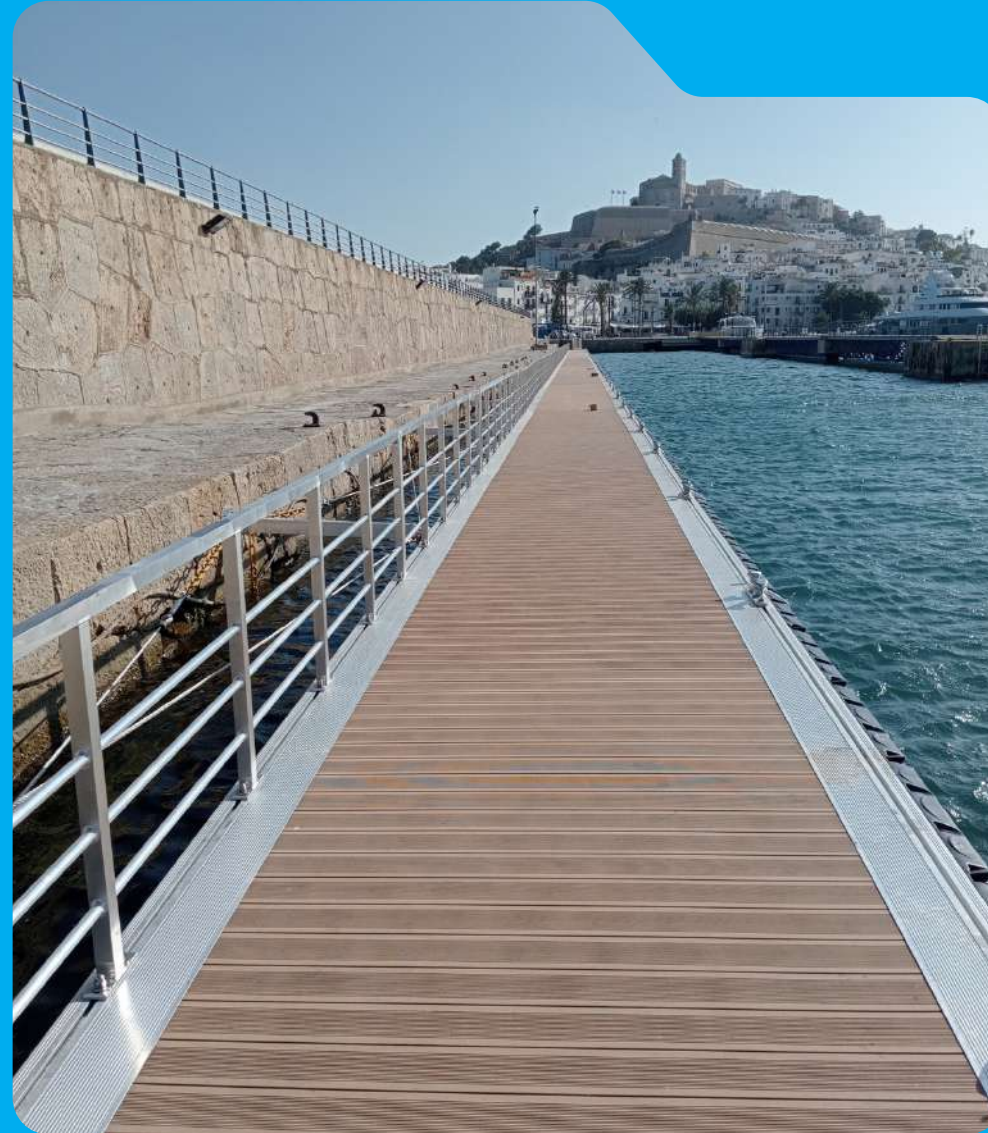

Business Areas

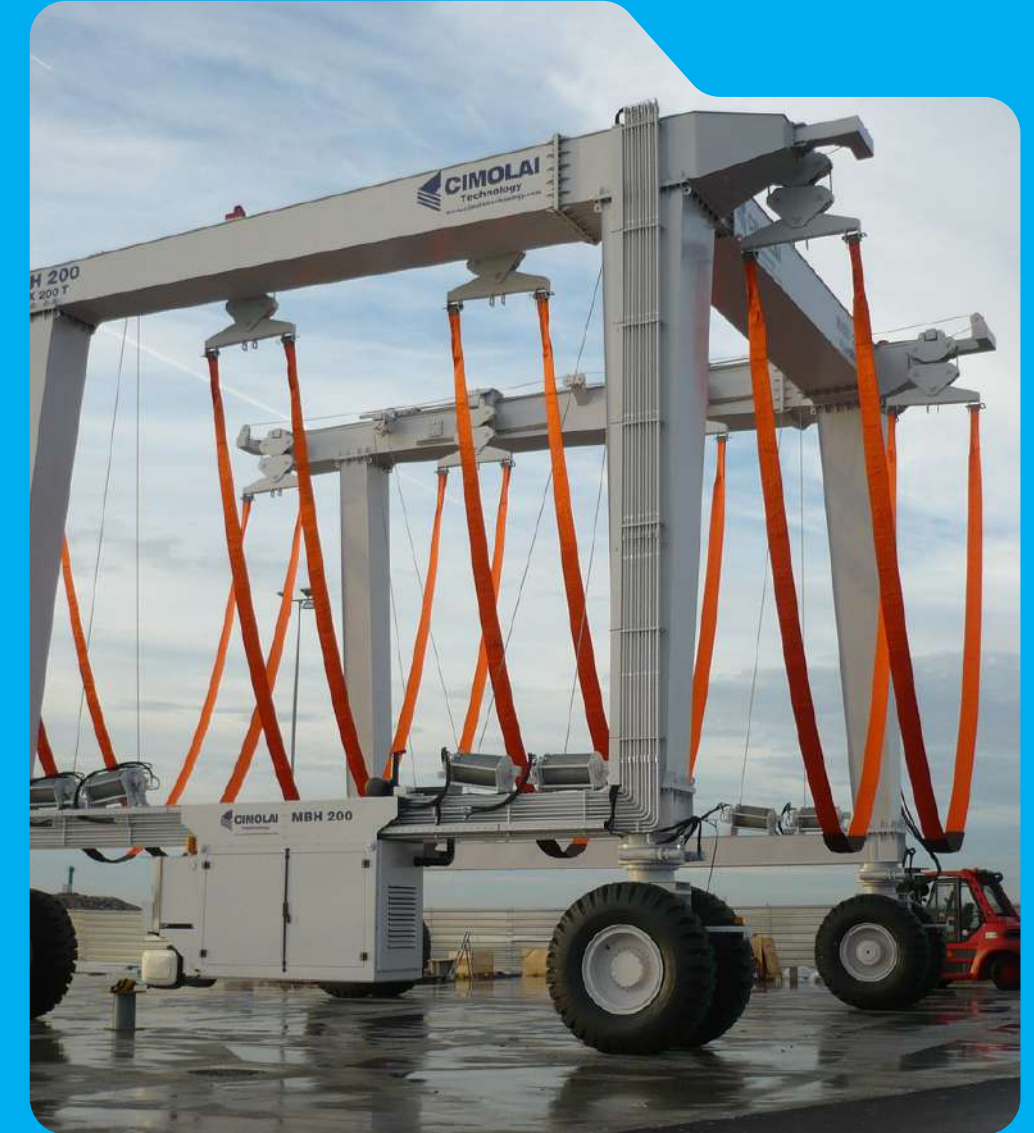

Marine aids to navigation

Buoys, beacons and towers, lighthouses

Infrastructure

Fixed and floating pontoons

Boatyard Equipment

Travelifts and dry marina equipment

Marine Aids to Navigation

Marine buoys

Rotomoulded polyethylene or elastomer

Port, river and canal buoyage
Delineation of concession boundaries

Hazard marking

Construction zone marking

Temporary installations

Mooring buoys

Submarine outfalls

Offshore buoyage

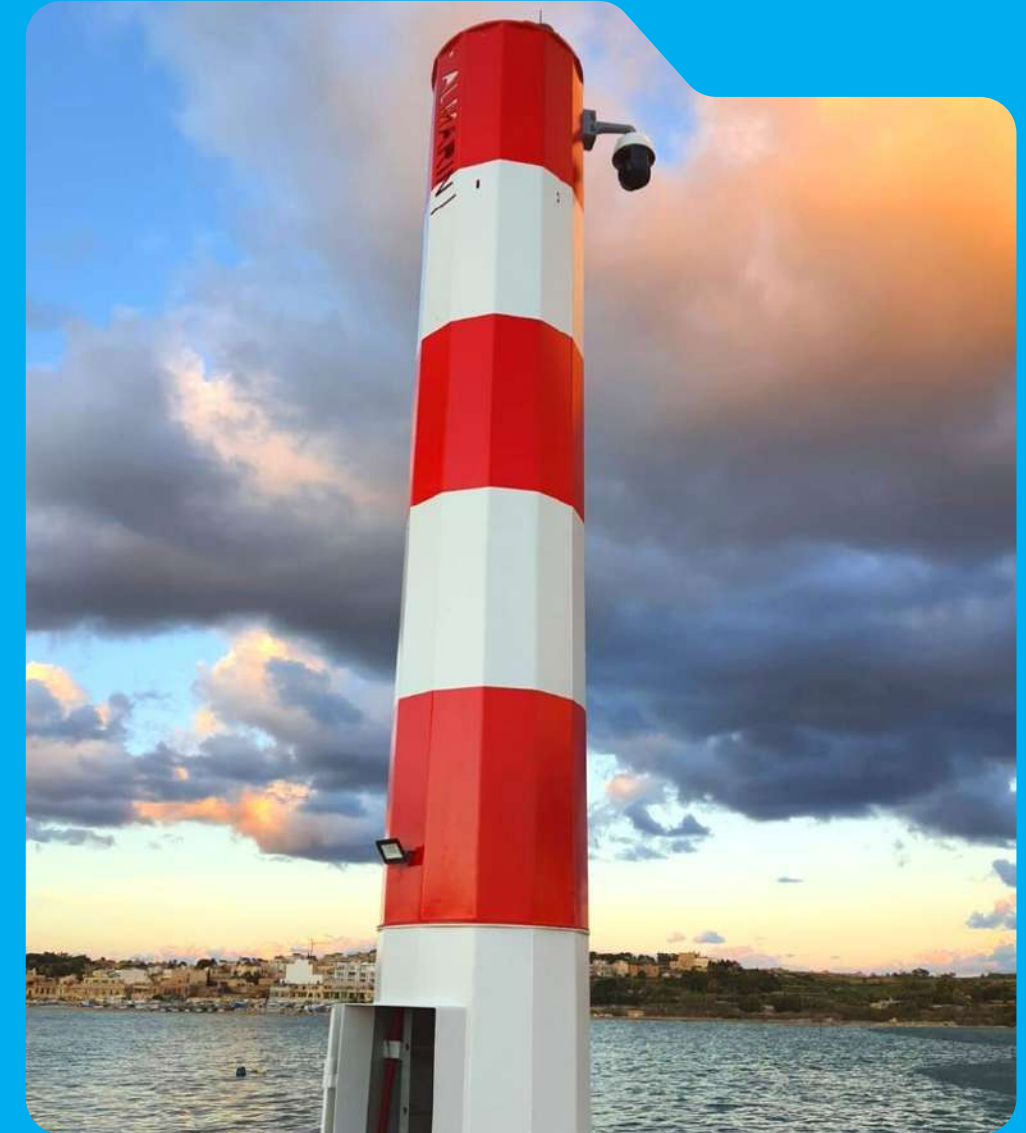

Aquaculture marking

Lighthouses and coastal AtoN

Leading line structures

Sector light structures

**Lighthouse lantern rooms refurbishment
and replacement**

Navigation beacons

Galvanised steel, stainless steel
or fibreglass

Infrastructure

Marina and waterfront development

Ports and marinas

Extensions, renovations, rehabilitation
and new marina developments

Inland waters

Public and private jetties for reservoirs,
rivers and lakes
